

Memorandum of Agreement

Working to Institutionalize Sex Education

DeKalb County School District (DCSD)

Effective September 2011, the Georgia Campaign for Adolescent Power and Potential (GCAPP) was selected by the Grove Foundation as one of ten organizations to participate in a national initiative to support school districts and independent schools to build the infrastructure to institutionalize sex education in Georgia. The Working to Institutionalize Sex Education (WISE) initiative provides focused funding for nonprofits and education agencies working to advance school districts' sex education policies and programs and build school district capacity to sustain sex education programs over time. With WISE support, GCAPP works with school districts, schools, and local partners to provide technical assistance, training and resources to select, implement, and monitor comprehensive sex education curricula in schools.

The goal of WISE is to build new and strengthen existing sexuality and health education infrastructure to implement and institutionalize sex education in Georgia through five strategies:
